## BEAM SANDBOX (RECTANGULAR)

Page 1/3

Z1836

1-10 YEARS

2-4 PERSONS-HOURS

### Product Information

Product type	Sand playground equipment
Certification	EN-1176
Dimensions	1,8 x 3,6 x 0,4 m (length x width x height)

### Technical Information

Maximum fall height	-
Security zone	- m <sup>2</sup>
Number of children	20
No concrete required	

### Materials

Type of wood: larch beams, ash pins  
 Pre-drilled beams 1,8 m (9 x 9 cm)  
 25 mm pins  
 Filter cloth to lay at the base  
 Options:  
 HDPE polyethylene seats  
 Waterproof plate cover 18 mm with plastic handles  
 Net cover in HDPE polyethylene

### Product Description

Traditional sandbox with the shape of a rectangular. The sandbox consists out of pre-drilled beams (9 x 9 cm) which are connected to each other by means of ash pins. A filter cloth is included. It is possible to extend the sandbox with 4 HDPE polyethylene seats in the corners (Z1836). Possibly, the sandbox can be covered with waterproof plate covers 18 mm with plastic handles (D1836) or a net cover in HDPE polyethylene (N1836). Due to weather conditions, deformation of the cover plates may occur, however this can be solved by turning the plate.
