 Floor boards 22mm thick
 Staircase with integrated rungs of 35 mm thickness
 Low stainless-steel slide with HDPE polyethylene sidewalls
 Climbing ladder with integrated rungs 40 mm
 Ropes and nets in 16 mm polypropylene rope with steel-wire reinforcement
 Non-slip rock wall
 Galvanized metal base supports
 Plastic clamps
 Metal parts treated against rust and polyester coated

Product Description

A multifunctional wooden playground equipment for children aged 3 to 15 years. This combination combines the jumbo watch tower and the indian village. The jumbo watch tower is a high climbing tower with a two-story-high platform, topped with a gable roof accessible via a vertical climbing ladder. The indian village is a combination of 2 platforms, connected by means of a net bridge. One platform is accessible via a climbing arch, the other via a rock wall. A plastic slide leaves from the platform with the rock wall. A spiral slide is attached to the upper platform of the jumbo watch tower. The lowest platform can be used as a play house.
